METADATA

Data Description

This public report provides information to participants about the daily average pool price and the 30 day rolling average pool price including on and off peak averages.

This report contains information on date, daily average pool price (\$/MWh) including on and off peak averages and the 30 day rolling average pool price including on and off peak averages.

On peak hours are defined as hours ending 8 through 23 inclusive and off peak hours are all other hours of the day. The 30 day average is the average price of the pool prices on the indicated date and the 29 previous days.
