

# Actual Forecast (Pre-Quick Hits) Metadata

Report Category: Historical

## METADATA

### Data Description

This public report provides information on the Forecast and Actual Pool Prices (APP) for the current day and up to the current hour, for the Daily report, and provides all the available Daily Forecast and Actual Data for the selected month on the Monthly report.

Report includes information on the FPP, Next Settlement Period, APP, Forecast Actual Pool Demand and BOS.

This report does not contain reconciled data and is provided for information purposes only.

### Definition of Column Content

- Column 1 - Date and Hour Ending (HE)
- Column 2 - Day Ahead Price
- Column 3 - Real Time Price
- Column 4 - Actual Posted Price
- Column 5 - Forecast Alberta Internal Load (AIL)
- Column 6 - Actual Alberta Internal Load (AIL)
- Column 7 - Forecast AIL & Actual AIL Difference
- Column 8 - \*Offer
- Column 9 - \*Bid

### Notes:

- There is a header spanning above columns 8 and 9 titled, " Day Ahead/Real Time Forecast Spread"
- This report is based on unreconciled data. Any changes to Actual Posted Pool Price will be communicated to each participant.
- The Forecast Spread is the lowest priced offer that is not scheduled to be fully dispatched and the highest priced bid that is not scheduled to be supplied.
- A "--" in a column indicates that the value is not yet available.

\* These are forecasts and are subject to forecast error. Generally stated, as the forecast period is extended, the forecast error can be expected to increase. Further, "real time" forecasts are dynamic and are subject to significant changes in response to physical changes to the system and by the participant's actions in the market.

### Available Formats

- HTML
- CSV

### Timing of Updates

This report is updated on demand and change of data.
